## NEW DATES FOR EXPOBIOGAZ 2021

1st and 2nd September, 2021 at Parc des Expositions in Metz Métropole

GL events and ATEE Club Biogaz have made the decision to postpone the EXPOBIOGAZ exhibition from its original dates of 2nd and 3rd June, 2021 in the Metz Métropole exhibition centre.

In the light of the pandemic crisis and the uncertainty that follows, the organizers announce that the most reasonable course of action is to postpone the 2021 edition.

EXPOBIOGAZ will therefore be held on 1st and 2nd September, 2021 in Parc des Expositions, the exhibition centre for Metz and its district.

With over 110 exhibitors already registered, the 2021 edition of France's benchmark gathering on renewable gas production and value extraction, featuring a complete range of solutions, is eagerly awaited. This 10th edition will be taking place at the centre of a buoyant, dynamic region, putting it closer than ever to markets and project initiators.

### Jobs and training, two themes constantly at the core of the EXPOBIOGAZ exhibition

These two subjects remain a major issue in biogas sector development. They will therefore once again take pride of place at this coming edition in the shape of the Talents Forum, organized in association with *Biogaz Vallée*® and *emploi-environnement.com*.

On the agenda: showcasing of existing training programmes with the presence of training centres, pairing up of professional job-seekers with recruiting companies, notably through features like the job wall and job café.

### New feature: EXPOBIOGAZ goes digital

In today's most atypical contexts, in order to continue assisting the market as best we can, EXPOBIOGAZ is adapting and going digital.

A Web platform and a digital application are offered to complement the physical exhibition and to favour and optimize the forming of new relations among the whole of the sector's stakeholders: exhibitors, visitors, and partners. By facilitating more contacts both in situ and remotely, the exhibition offers all professionals the opportunity to network and to arrange meetings both prior to and during the event. These appointments can then be fulfilled either in person at the exhibition or via a videoconferencing tool.

### About the organiser

With 200 events organised worldwide for professionals and the general public alike, GL events Exhibitions Operations has acquired unparalleled know-how in the business of organising trade shows, a trade which requires ever more exacting skills in marketing, communication, and organisation while staying close to people in its markets. The Expobiogaz trade show is organised by the GL events Exhibitions Operations Green Tech+ department, which also manages 7 other major gatherings: BePositive, Eurobois, HyVolution, Paysalia, Rocalia, Piscine Global Europe and Natur'In.
